Announcement Guide

1. Start the timer when the first speaker is called to draw topics.
2. For every 5 minutes that pass on the timer, the person making announcements will read out the information under the appropriate time column.
3. Once the last speaker has reached the "Go Speak Now" point on the chart, extemp draw is complete. Make copies of this sheet as necessary. For example, when the timer reaches 10 minutes, the announcer would call out, "Speaker 1 has 20 minutes left. Speaker 2 needs to come draw topics."
