Update Your Files
But how?!?

4

Extemp Genie

System automatically saves articles that are accessible via a search function.

Prepd

A per-user cost system that automatically saves articles and allows individual users to create files and folders in a more traditional filing system.

Homemade

Saving articles (few ways) and organizing them via a file-sharing system (Dropbox, Google Drive, etc) that can be accessed by students.

FOLDERS/ COLLECTIONS

Place to monitor/organize files, sub folders, etc. Students can “catch” articles and file them into the right place. Students can create “collections” and add files there.

SEARCH/ BROWSE

This allows you to search the database of files and set up a series of articles to use while preparing your speech.

ANALYTICS

Coach-end part of the system. You can: monitor what students are doing, see how often they spend time in the database, and look at what they’re spending their time doing.

Extemp

Place to monitor/organize files, sub folders, etc. Students can “catch” articles and file them into the right place. Students can “create rounds” and add files there.

Library

Where caught articles go! You can file from here or students can search from here.

Classroom

Coach-end part of the system. You can: monitor what students are doing, create challenges for the students, get analytics for your files.
