

UIL Music Memory

What is UIL Music Memory?

Music Memory is a classical music listening competition. Students in 6th, 7th, and 8th grade study 20 pieces of classical music and have to be able to identify them on the test day after hearing only 20 seconds of that piece. Students have to know the name of the selection, major work (if the piece has one), and the name of the composer. They also answer a multiple choice trivia question about each selection or its composer.

How do I study?

- You will receive a list of all of the names of the pieces and their composers. Study these and be able to match the title of the piece to the name of the composer. If you are selected for the team, you will be responsible for writing the name of the piece and composer by memory. Read over the information on the student pages to prepare for the multiple choice portion of the test.
- Listen to the recordings all the way through and be able to identify the selection by hearing a small section of ANY part of the song.
- Attend the practice sessions held by the Music Memory Coach. The coach for Music Memory is _____.

How do I make the team?

Three students will be selected from each grade level to be on the Music Memory team. The team will be the three students that score highest on the _____ test. On _____, we will compete at the District UIL meet at _____. **GOOD LUCK!**
